At its November 20, 2017 board meeting, the Coastal San Pedro Neighborhood Council passed a motion to request the California State Rail Plan be revised as follows:

Define a plan to advocate that the Environmental Protection Agency adopt the following locomotive engine transition plan:

1. Accelerate implementation of zero or near zero emission locomotive requirements, as petitioned by the California Air Resources Board;
2. Accelerate the replacement of Tier 3 and earlier locomotive engines with Tier 4 or better engines by 2025.

We look forward to your response to our motion.
